

Replacement Bag Worksheet

Dust collector (make) _____

Number of bags _____

Number of compartments _____

Pre-filters Yes No Make or Type _____

Cage construction or design _____

Bag dimensions _____

Cleaning Method On line Off line
 Delta p controlled time controlled

Cleaning frequency per row _____

Duration _____

Pressure (if pulse type) _____

Air volume pulse design Low Medium High

Inlet temperature _____

Insulation Yes No

Are there any temperature excursions? Yes No

If so, frequency _____

Length _____

Maximum temperature recorded _____

Air flow rate:

Design _____ Actual _____

Present filter media in use

Fabric construction _____ Felt _____ Woven _____

Fiber _____ Weight _____ Permeability _____

If felt: finish _____

If woven _____

Weave _____ Count _____ Finish _____
